Nooks & Crannies of The INN

The INN offers three very large outdoor decks, the largest in the area. Complete with lighting, heating, tables and chairs. Our decks can seat up to 80 people on three different levels, all within earshot of each other. Even a space for a casual buffet and a small band.

The INN has the most amazing lounge, with sunken heated floor, real wood burning fireplace, the most unique couches and chairs and enough charm to relax everyone. Our bar is as unique as everything else. We are a cocktail bar (we have beer & cider too), and the most extensive wine cellar in Northern Vermont. Our mixologist can create a cocktail just for your event!
